Due Date 9 Apr 2021

Amount Due \$75.03 4

1 Contact Us

Keep your account number on hand when contacting us with questions or assistance with your bill.

2 Billing Period

Your billing period includes specific energy charges calculated based on the dates outlined in this section. More detailed information on your charges are shown on the following pages.

3 Total Charges

Your total charge is based on your home energy use from the grid during this period.

4 Total Amount Due

The amount due can vary from the total charge, as it includes credits and/or unpaid balances from previous bills.

5 How to Pay Your Bill

Follow the instructions to pay your bill:
www.energylocals.com.au/fees

6 Grid Meter Readings

Meter readings represent the energy flowing into and out of your property, including energy from the grid, and exported energy from solar and Powerwall.

7 Solar Feed-In Tariff

The Solar Feed-In Tariff is a credit that represents energy exported to the grid. The tiered feed in tariff structure encourages you to consume your renewably generated energy before drawing from the grid.

8 Controlled Load

If you have appliances that work off controlled loads, they will also benefit from Time of Use rates.

9 Grid Support Credits

Grid Support Credits are calculated daily and applied to your account monthly for each Powerwall that you own.

10 Benchmark Graphs

Use this graph to compare your energy consumption with homes in your area.
